WORK EXPERIENCE

Tops Technologies

MAY 2025 - PRESENT

Cybersecurity Trainee

- Successfully completed modules in Computer Hardware and Computer Networking, gaining hands-on experience in system components, device configuration, network protocols, and troubleshooting techniques.
- Explored foundational concepts in Ethical Hacking, including common vulnerabilities, cyberattack methods, and security best practices, with a focus on identifying threats, securing systems, and understanding real-world cybersecurity challenges.
- Demonstrated a strong ability to apply theoretical knowledge to practical scenarios, laying the groundwork for further specialization in the cybersecurity domain

Technicra IT Solutions (Internship)

January 2024 - April 2024

PHP Intern

- Developed a dynamic web application that allows users to create customized business or visiting cards using pre-designed templates.
- Integrated form inputs to collect user details (name, contact, business info) and automatically populate the selected template with accurate data.
- Utilized PHP, Laravel, HTML, CSS, Bootstrap, and JavaScript to build an interactive and user-friendly interface.
- Focused on responsive design to ensure the application works smoothly across various devices and screen sizes.
- Implemented features for template previews, live editing, and card downloads, enhancing the overall user experience.
